

### **Drawings Amendments**

Fig. 2 has been amended to correct misnumbered reference characters. In particular, the reference character 46 indicating the rotary dial has been changed to 44, the reference character 46 indicating the mouse has been changed to 40, the reference character 46 indicating the mouse housing has been changed to 42, and the reference character 46 indicating the tactile features has been changed to 49. There is no reference character 46 indicating the moveable base, however, there is a reference character 46 on the external surface of the mouse housing 42. This reference character has been removed. A marked up copy showing changes is enclosed herewith.
